

Aldo Vata

Rego Park, NY 11374 | (347)-785-0186 | aldoigli12@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Master's student in Data Science with a bachelor's degree in computational economics and a solid computer science foundation. Strong skills in data analysis, programming (Python, Java, SQL) and database concepts, with hands-on experience using Excel for charting, graphing and data manipulation. Certified in Google Data Analytics, adept at translating complex datasets into actionable insights for client-focused reporting and projects.

TECHNICAL SKILLS

- Programming Languages: SQL, Python, R, Java, C++, AWS
- Database Management: MySQL
- Software: Stata, Microsoft Excel/Word/PowerPoint, Git, Visual Studio
- Certifications: Google Data Analytics Specialization Certificate (Credential ID: V3YZBOH9PR41)

PROJECTS

VAR and Football Attendance: An Empirical Analysis | Difference-in-Differences Senior Thesis

Jan 2025 - May 2025

- Extracted Premier League and Championship team statistics using Python scripts and structured the dataset for regression analysis.
- Conducted Difference-in-Differences regression in Python and Stata to evaluate the impact of VAR on average attendance while controlling for fouls per 90, yellow cards, points, offsides, and other match metrics.
- Built an interactive GitHub Pages case study to visualize attendance trends, regression results, and key findings from the thesis.

Design and Implementation of a Database for a Local Gym System | Database Project

Mar 2024 - May 2024

- Designed an entity-relationship model and normalized schema for a gym membership system to improve data integrity and system efficiency.
- Implemented the database in Microsoft Access and wrote SQL queries to automate membership management, class scheduling, and billing reports.

EDUCATION

Pace University | MS, Data Science

Expected May 2027

Coursework: Scalable Database, Mathematical Foundations of Analytics, Data Mining, Algorithms for Data Science

Pace University | BS, Computational Economics

May 2025

Coursework: Quantitative Analysis and Forecasting, Artificial Intelligence, Database Management, Mathematical Foundations of Machine Learning, Econometrics, Economic Data Analysis (R and Python)

PROFESSIONAL EXPERIENCE

Goldfarb Properties | Building Floater / Package Room Doorman

Aug 2021 - Apr 2024

- Monitored building access and verified guest credentials, logging information in a database to support security and resident safety.
- Used Microsoft Excel to filter, sort, and organize delivery data while assisting residents and guests with entries, deliveries, and inquiries.
- Coordinated with building management and security personnel to maintain incident, access, visitor, and package logs.
- Generated weekly summaries from visitor and package records to improve organization and accountability.

LEADERSHIP

Pace University Esports | Rainbow Six Siege Varsity Co-Captain

Sep 2024 - Present

- Represented Pace University at the NECC 2026 Division 1 San Antonio LAN and contributed to the NECC R6 National Championship 2025 team.
- Led team strategies, in-game decision-making, practice sessions, and scrims to improve communication and competitive performance.
- Analyzed match footage and opponent tactics to develop counterstrategies and mentor teammates on mechanics and teamwork.
